

Floor Restor™ been formulated to quickly remove greasy soils from hard floor surfaces, such as ceramic and glazed porcelain tiles, cement, marble, natural and engineered stone, as well as, all types of grout. This product restores poorly maintained or heavily trafficked floor surfaces to their original appearance.

DILUTIONS

- Medium soil: 1 part with 8 parts of water.
- Heavy soil: 1 part with 4 parts of water.

DIRECTIONS

- 1) Shake gently before use.
- 2) Always test for color stability before use.
- 3) Dilute according to soil conditions.
- 4) Apply solution to surface with a sponge, mop or low-pressure sprayer – avoid over-application onto other surfaces. For heavy build-up, agitate surface with a brush or floor machine as needed.
- 5) Allow to dwell for 1 to 5 minutes, but do not let surface dry.
- 6) Remove solution with a sponge, wet/dry vacuum, damp mop or hard surface extractor. Rinse area well with clean water.

TECHNICAL DATA

pH at use dilution	11.00
Compound type	nonionic
Water solubility	complete
Freeze/thaw stable	yes
VOC compliant	yes
Shelf-life, years	5+

AVAILABLE SIZES

US gallon . 55-gallon drum
