BLDG.com

### A Kleen Chemistry

#### PROBIOTIC CLEANING SYSTEMS

#### Exceptional Odor Removal

### PRODUCT INFO

Powerful formula that permanently removes malodors through a molecular bonding action, encapsulation, enzyme degradation followed by natural digestion.

Effectively eliminates all foul odors from industrial waste-water systems to residential environments; garbage can & dumpsters, grease & protein reclamation, fish processing facilities, litter boxes, pet cages, auto interiors, restrooms, carpet & fabric.

Also effective eliminating odors from tobacco, marijuana and protein fires during disaster restoration.

#### What is Remedi?

Derived from Bioremediation - this highly effective line of products containing specialized, friendly bacteria and enzymes, can truly be referred to as Probiotics for industrial, commercial and residential environments. Our integrated chemistry of ecologically focused ingredients accelerate the emulsification and dissolution of targeted soils and pollutants.

- Going beyond green & sustainability, these products support the rapid return of our environments to their natural state
- Unique blends that target specific soils & pollutants, including long-chain & short-chain hydrocarbons
- Improves air quality; reduces hydrogen sulfide, indoor air-pollution & other foul odors, while enhancing healthy BOD, COD levels
- Continued environmental benefits throughout drains, sewer system networks and water tables

#### DIRECTIONS FOR USE

Shake gently before use (unless you are using the Remedi Automatic Dispensing System).

Do not dilute, this product is ready-to-use.

This product is also available in bulk.

Consult your Remedi Representative about our Commercial & Industrial Automated Delivery Systems.

#### Instructions:

Apply with a hand-held, garden or backpack sprayer. For room deodorizing, spray upward into the air, away from eyes.

When using a non-thermal ULV fogging unit, follow instructions provided by the equipment manufacturer.

## Biological Odor Eliminator

This unique and powerful formula permanently removes malodors through a molecular bonding action, encapsulation and enzyme degradation, followed by natural digestion.

AIR effectively eliminates all foul odors from industrial waste-water systems to residential environments; garbage can & dumpsters, grease & protein reclamation and fish processing facilities.

## WASTE WATER INDUSTRIAL BIOLOGICAL ODOR ELIMINATION SYSTEM

We have successfully formulated a Natural biological + Kleen chemistry formula, coupled with our proprietary application system. This System has been tested and proven to safely and completely eliminate odors created at a 30 million gallon per day waste lift station in Rio Rancho, New Mexico.
