VIRUCIDE
STAT
SANITIZER • DISINFECTANT

STAT is a highly concentrated disinfectant, bactericide and virucide that has been registered with the US EPA with a wide range of activity against MRSA, Canine Parvovirus, HIV-1 (associated with AIDS), Avian Influenza, Human Coronavirus and SARS.

One gallon makes 182 to 213 gallons of ready-to-use solution.

STAT has demonstrated effectiveness against viruses similar to 2019 novel coronavirus (SARS-CoV-2) on hard, non-porous surfaces. Therefore this product can be used against SARS-CoV-2, the novel coronavirus that causes the disease COVID-19, when used in accordance with the directions for use against Adenovirus Type 5.

- For use in hospitals, nursing homes, community centers, restaurants, food processing plants, schools, gyms, hotels, airports as well as other commercial & industrial facilities
- Excellent on busses, trains, subways, taxis, aircraft, boats, cruise ships, ambulances, and other means of public transportation
- Cleared under the FDA for use as a sanitizing solution on food contact surfaces, food processing equipment and eating utensils
- May be used as a fogging agent to disinfect small and large areas
- Prevents and controls the growth of mold & mildew
- For use on carpet
- Hypoallergenic when dry

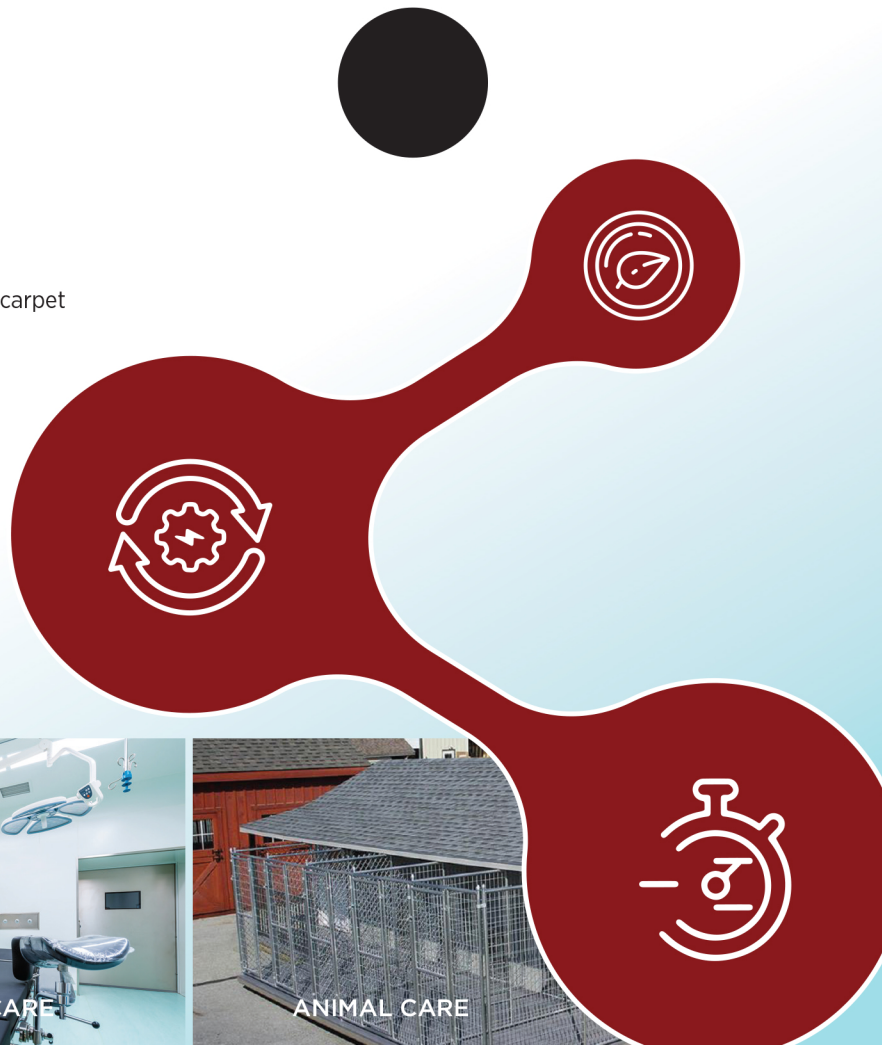

For use as a **DISINFECTANT**

General Disinfection: 3 ounces per 5 gallons of water

Hospital Disinfection: 3½ ounces per 5 gallons of water

Special Instructions for **CARPET**

STAT is also for use through portable and truck mounted carpet extraction as well as rotary floor equipment.
